

Town of Derry

MASTER PLAN UPDATE

Volume I

This Plan was developed through a citizen-based, participatory process that took place from the fall of 1999 through the summer of 2000. A Master Plan Steering Committee oversaw the process, involving a series of community workshops and several citizen working topic groups. Herr & James Associates, planning consultants, facilitated the citizen participatory process, provided technical and data support, and produced the Plan document based upon the outcomes of the citizen-based planning process.

Master Plan Steering Committee
